

Amendments to the Drawings:

Please amend Figures 3A and 3B and 9A and 9B to separate the composite and exploded views of the respective figures. Please see the attached replacement sheets.

REMARKS/ARGUMENTS

Amendment to Specification

The requested Amendments are made to correct inadvertent typographical errors. Paragraph [0006] is amended to replace U.S. Patent No. 5,792,016 with 5,792,086. The Ex Parte Quayle action required replacement of Paragraph [0026] because of two periods at the end of the paragraph. Appropriate correction is provided herewith.

Amendments to Drawings

The requested Amendments are made in response to the objection to Figure 3B in the Ex Parte Quayle Office Action related to the need for brackets enclosing the exploded view. The exploded view has been separated from the composite view and placed on its own individual page. For clarity, Applicant has made a similar change to Figure 9.

No new information or material has been added to the application with this submission.

CONCLUSION

In view of the foregoing, this case is considered to be in condition for allowance and passage to issuance is respectfully requested.
